1. Starter Guide

Telegram AI Chatbot allows you to ask questions, and it also answers your questions according to user intents. It is available 24/7 and customizes each reply based on user intent. The bot uses Natural Language Processing to understand and respond to the customer's messages.

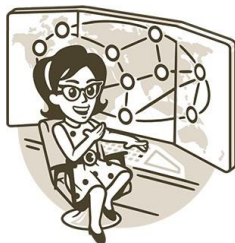

When a user sends a message, it is decoded by NLP to interpret the intent behind the message. This allows the chatbot to generate customized automated replies within 1 second

Telegram AI Chatbot, businesses can offer the followings:

- **Better customer support**
- **Improved lead generation**
- **Updates on status, customization, and tracking**
- **Personalized recommendations**
- **Quick response time**
- **Better scalability**
- **Seamless marketing**

2. Apply TelegramAPI

- a) Create a [developer account](#) in Telegram.
- b) Goto [API development tools](#) and copy API_ID and API_HASH from your account. You'll need it later.

Delete Account or Manage Apps

Log in here to **manage your apps** using Telegram API or **delete your account**. Enter your number and we will send you a confirmation code via Telegram (not SMS).

Your Phone Number

Please enter your number in [international format](#)

Next

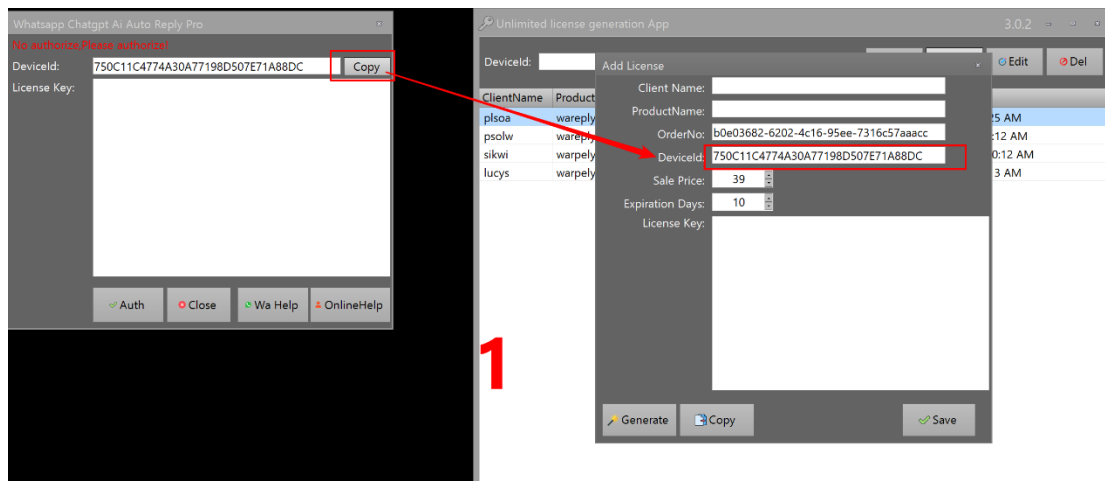

Your Telegram Core

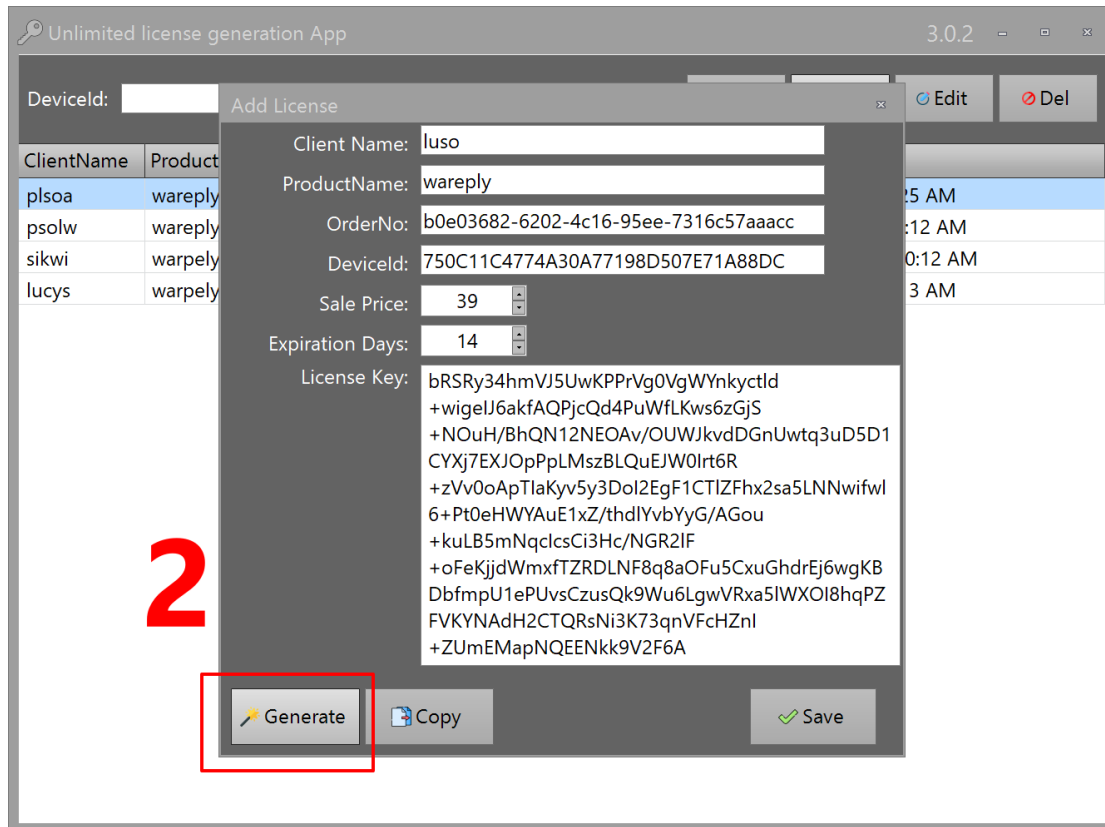

- [API development tools](#)
- [Delete account](#)
- [Log out](#)

3. License Keygen

License Key Generator app is a powerful authorization management tool that can help you quickly and easily generate unlimited license key authorization.

♥ At the same time, your customers can also sell to anyone unlimitedly through the keygen.

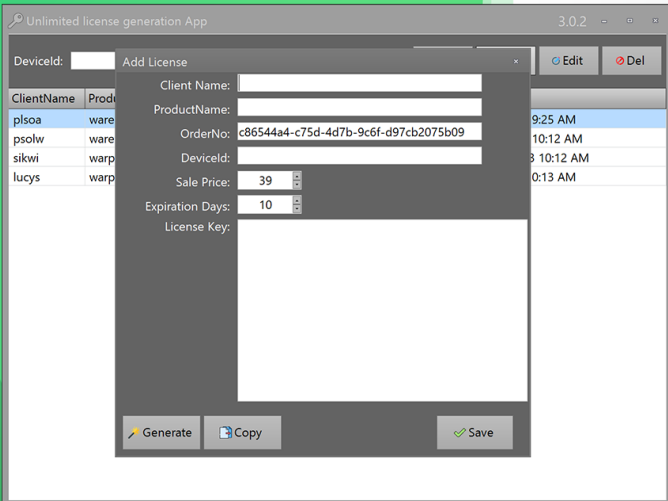

1) Add

You can use the **license tool** to increase your customer license.

Generate a license key for the customer through the deviceid provided by the customer.

License key Generator App--Add new

- ✓ Set you Customer name
- ✓ Set the customer's driverID
- ✓ Set sale price
- ✓ Set expiration days

License key Generator App--Add new

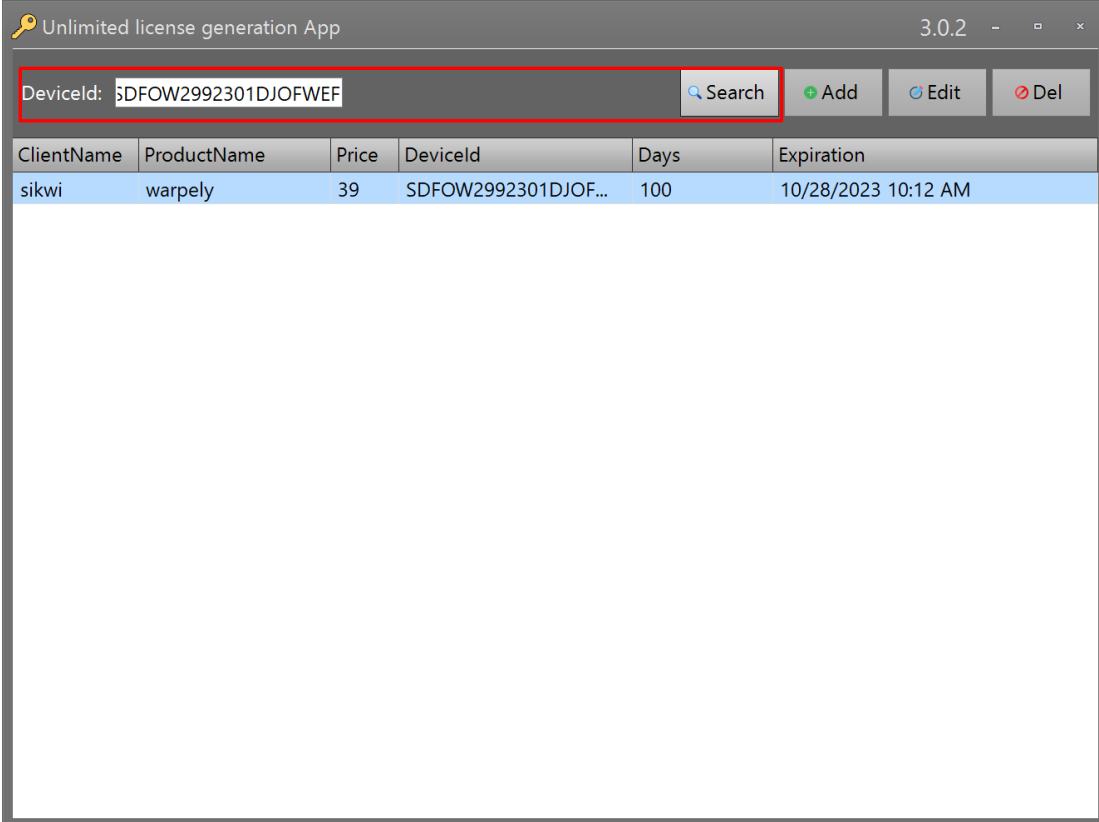

- ✔ **Set you Customer name**
- ✔ **Set the customer's driverID**
- ✔ **Set sale price**
- ✔ **Set expiration days**

2) Update

Through the update feature, you can update the expiration date of your customer, and then regenerate a new license key and send it to your customer

3) Search

You can search for authorization information for any customer

The screenshot shows a software application window titled "Unlimited license generation App" with version "3.0.2". The interface includes a search bar labeled "DeviceId:" containing the text "SDFOW2992301DJOFWEF". To the right of the search bar is a "Search" button, followed by "Add", "Edit", and "Del" buttons. Below the search bar is a table with the following data:

ClientName	ProductName	Price	DeviceId	Days	Expiration
sikwi	warpely	39	SDFOW2992301DJOF...	100	10/28/2023 10:12 AM

5. How to set prompt?

prompt example:

*I want you to be a great customer service representative. Our company address is: 1812 Percy Avenue. Our telegram number is: 13156299582.
Our software includes: telegram batch sending, telegram filtering, etc.
Our software price is: 19-20\$.
Our website is: <https://codecanyon.net/user/galaxyxstudio/portfolio>.
Our welcome is: "Welcome to trck software studio, very happy to serve you".
My first request is "What is the price of the software?"*
